

Bald Eagle Apex Development Solutions, Inc.

Together We Can Make A Difference

Mission :

Partake in the global fight against poverty by supporting sovereign and private entities in the conception, implementation and evaluation of strategies and policies aimed at spurring high quality growth, promoting sustainable development, and maximizing their trickling-down positive impact on the poor.

Focus :

We focus on international development and poverty reduction. As such, we seek to further the work of private investors, and development agencies and institutions such as the USAID.

Products :

We offer three main lines of products:

- *The Eagle Strategic Compact*[®]: This product supports our clients in their effort to turn their development vision into credible frameworks for action.
- *The Eagle Investment Nest for Catalytic Growth*[®]: The Nest focuses on the mobilization of much needed resources for financing growth and development strategies.
- *The Eagle Wing Platform for Capacity Enhancement and Leadership*[®]: In partnership with specialized academic institutions, the platform provides clients with hands-on training in leadership, corporate finance, banking/markets finance, as well as micro and macro-finance. It also helps clients improve their IT and other productivity tools.

Company Expertise :

- *Support the design of development programs and strategies at country and private entity levels;*
- *Promote sound monetary policies, support the development of the financial sector, and further financial inclusion;*
- *Promote economic growth, investment, and trade. We focus on the identification of high value sectors such as agriculture and seek to bring about resilience to shocks like those inherent to climate change;*
- *Support regional integration and help countries better align their national priorities with the regional policies they abide to;*
- *Promote excellence and homegrown expertise through the development and the use of local capacities;*
- *Use our diverse and multilingual experts to facilitate foreign investors' outreach and activities in non-english speaking environments.*
